

# OUR SUPPORT

## *Continues*

## WHAT CAN YOU EXPECT AFTER GRADUATION?

### *We are always here for you!*

As you go out into the working world, whether you have something lined up already, are going to graduate school, or are still trying to figure out your next steps... we are just a call, email or visit away! Your career development support continues for life!

### *Access to your email and our systems*

When you graduate, your BLC email remains. You can use it as a professional email for resumes and job applications. You can also still gain access to any websites we are partnered with. So feel free to use our career development website to keep up with the options that you have available such as Handshake and PathwayU.

### *Did you know?*

On our career development website, you will see "job search links" on the right hand side. This is a one stop link to lots of great resources when looking for jobs. There are lots of popular general search engines, and then more specific resources for your major or area of interest. Go and check it out!
